
Banyan Software Acquires ResolutionMD from Calgary Scientific, Inc.

Banyan Software, a leading acquirer and permanent home for great software businesses, announces the acquisition of ResolutionMD (“ResMD”) from Calgary Scientific, Inc. ResMD is an industry leading medical imaging visualization platform that empowers healthcare professionals to collaborate and diagnose patients while viewing and sharing 2D and 3D medical images.

ResMD’s enterprise image and document viewing solution provides one simple interface for healthcare professionals across the globe to securely access patient imaging. The platform integrates with all major EHR/EMR vendors, providing secure and direct access to patient image data anywhere, and on any device.

“We’re thrilled to welcome the ResMD team to the Banyan family. They will be a core part of our healthcare portfolio and also an exciting platform to grow within radiology. Our team is committed to facilitating a seamless integration and investing in the resources necessary to build upon their success. The goal remains the same: enhance patient care and streamline healthcare workflows through innovative imaging technology.”

Darren Harris • Operating Partner, Banyan Software

“I’m looking forward to this next phase of growth for the business. The opportunity to leverage the expertise and resources that comes with being part of a larger family of businesses is unique and enticing. The buy-and-hold for life model and the decentralized management approach means our team and customers will continue to be well supported long into the future.”

Chris Slaymaker • General Manager, ResolutionMD
