3 Must Attend Conferences in 2017 for Imaging

2017 will see the inauguration of several imaging conferences around the world. Clinicians, managers and leading experts are gathering at different events in Europe and beyond to discuss and highlight current issues in imaging and radiology.

HealthManagement.org has picked the top three must-attend conferences taking place this year…

European Congress of Radiology 2017

Where? Vienna, Austria
When? March 1 – 5 2017

ECR is the annual meeting of the European Society of Radiology. Radiology professionals, radiographers, industry representatives and press reporters are among the hundreds of attendees joining the congress this year. Known as one of Europe's largest medical meetings, ECR has a programme, packed with courses, sessions, workshops and symposia, guaranteed to enlighten those who specialise in this industry. The themes this year range from *Professional Issues* and *Economics in Radiology to EuroSafe Imaging*. Actively participate and share your scientific work and thoughts with the international radiological community at ECR this year!

International Symposium on Biomedical Imaging 2017
Where? Melbourne, Australia

When? April 18 – 21 2017

Dedicated to mathematical, algorithmic, and computational aspects of biomedical imaging, ISBI is one of the leading events in imaging, taking place this year. Meetings with tutorials, scientific programs with plenary talks and special sessions are just a few of the exciting components of the ISBI programme. Distributing knowledge to a broad audience of radiologists and imaging scientists, the topics of interest at ISBI this year include computational and statistical image processing, dynamic imaging, image quality assessment, and physical, biological, and statistical modelling.

The UK Radiological Congress and Radiation and Oncology Congress (UKRCO)

Where? Manchester, England

When? 12 – 14 June 2017

Running simultaneously in one location, the UKRCO consists of multidisciplinary scientific congresses and technical exhibitions over a three-day period. The annual event taking place in Manchester this year, will bring together numerous keynote speakers who specialise in the field of radiological science and radiation oncology. If you want to participate in education workshops, hear intriguing radiology cases and clinical sessions as well give ear to scientific updates, demonstrations and techniques, make sure to become one of the 2,000 attendees at the UKRCO this year!

There's an abundance of imaging and radiology congresses in 2017. Our top three events guarantee to provide you with networking, knowledge and inspirational value for your profession in imaging. With so much to gain as an attendee, make sure to grab a seat at one of our highly recommended conferences!
