## 8th WHCC - Europe

---

The health systems of Europe are diverse. However they face many common challenges. These challenges are shared by health systems the world over, many of whom are pioneering innovative solutions.

The 8th annual World Health Care Congress (WHCC) Europe has been designed as a unique forum to present these global innovations in health care. and will be held in Amsterdam. It is the only major international forum that convenes leaders from all sectors of health care to discuss and develop actionable strategies to improve care delivery and outcomes.

The event has been designed to meet the needs of delegates from Europe. However, with over 60 speakers coming from 16 different countries, the World Health Care Congress is a truly global event that happens to be hosted in Europe.

Whatever challenges you face within your health system, you will find solutions to address them here. The Congress presents the best and latest ideas in modern healthcare and features the World's leading providers, payers and policy makers. You will meet leading providers and discuss with them how they are making tough decisions in the face of rising demand and diminishing resources. Acquire an action plan to achieve productivity and efficiency in healthcare delivery and learn about innovations to enable healthcare sustainability.

Explore the global challenge of shifting health systems to a prevention focus and to develop strategies to reduce costs through more effective chronic disease management and technology implementation. Last but not least you will receive the evidence needed to enable large scale delivery of connected health, remote monitoring and other technological innovations.

Share the experiences of some of the World's leading Integrated Care Organisations from Europe, the USA and beyond Examine a range of pioneering innovations in health care payment systems, reimbursement, funding, commissioning and incentives
