

Asieris Appoints Dr. Badrinath Konety to Scientific Advisory Board

Asieris Pharmaceuticals, a global biopharma company specializing in discovering and developing innovative drugs for the treatment of genitourinary tumors and other related diseases, announces Dr. Badrinath Konety has joined Asieris' Scientific Advisory Board.

Dr. Konety has more than 30 years of clinical research and medical practice experience in the field of genitourinary oncology. He is currently the President of Allina Health Cancer Institute and its Chief System Research Officer. He is also a professor in the Department of Urology, Rush Medical College. Before that, Dr. Konety had served as the Professor and Dougherty Family Chair in Uro-Oncology, and the Chairman in Department of Urology, University of Minnesota. His clinical and hospital excellence have seen him serve as the CEO for the University of Minnesota Physicians and the Dean of the Rush Medical College. Dr. Konety has held leading positions and offices in professional organizations such as the Presidents of Society of Academic Urologists and [Société Internationale d'Urologie](#). He has authored and co-authored more than 300 professional publications and served on the editorial boards of research journals, such as an Associate Editor of the Journal of Urology. Through his prominent research career, Dr. Konety has received funding from several organizations including NIH and the US Department of Defense. Dr. Konety graduated with a medical degree from M.S. Ramaiah Medical College of Bangalore University, India and completed his MBA at the Katz Graduate School of Business at the University of Pittsburgh. He completed an American Foundation for Urologic Disease research fellowship then trained as a Chief Clinical Fellow in Urology at the Memorial Sloan Kettering Cancer Center.

"We are honored to have Dr. Konety join our Scientific Advisory Board," remarked Dr. Kevin Pan, Founder and CEO of Asieris Pharmaceuticals. "With his profound expertise in the global genitourinary field, we are confident that Dr. Konety will play a critical role in helping Asieris refine and optimize its growth objectives and strategies, and helping accelerate its innovation ambitions to become a global specialty biopharmaceutical company."

"I'm impressed by Asieris' global vision as well as its innovative pipeline powered by its competitive research and development engine," Dr. Konety stated. "I look forward to working with the management team to advance cutting-edge science to serve our patients worldwide."
