#### HIT@HEALTHCARE - A Unique Joint Event (8-10 October, 2008)

For the first time in the healthcare history of Belgium and The Netherlands, four e-Health professional associations have decided to join forces in order to organise an international conference and exhibition in Brussels. This event will coincide with the celebration of the 25th MIC Congress of MIM and VMBI and the 3rd SIXI International Congress completed by the NVKVV-ISV event.

The e-Health event will elaborate on improving communication and continuity in healthcare as well as data exchange and dissemination of current international/national/regional projects results.
