

DataLink Augments Senior Executive Team to Serve Company Growth

[DataLink Software](#), a leading provider of data-driven solutions driving higher quality and cost-effective value-based care announces the appointment of industry veterans Sandip Patel as chief growth officer and Reddy Shivampet as chief technology officer.

"Our growth trajectory continues to be nothing short of extraordinary, and we are thrilled to expand the leadership team with these experienced and talented professionals," says Ashish Kachru, CEO, of DataLink. "Their expertise will help us pursue our mission to empower better health while simplifying the delivery of value-based care."

Sandip Patel

Chief Growth Officer

Patel has worked in several executive roles, including with American Managed Care, Orion Communities, and The Well Care Group. He has also served on several company boards, including Quantum Fintech, Monterey Bio, and Morton Plant Hospital. Patel received his law degree from Stetson University College of Law and his bachelor's degree in finance from the University of Georgia.

Shivampet has extensive experience driving technology strategy and product development, including for Nielsen Company, TIBCO Software, Dun & Bradstreet and several startup companies namely Gotara, pulsESG, Velosel, Apexon. He received his bachelor's degree in computer science from the University of Mysore in India and holds a master's degree in computer science from Western Michigan University.

Reddy Shivampet
Chief Technology Officer

As new members of the DataLink team, these professionals look forward to contributing to the anticipated growth of the company.

Patel says, "This is an opportunity to participate with an exceptional organization that is leading the way in value-based healthcare. We are impacting some of the nation's leading payer organizations and large, at-risk provider groups with technology solutions for creating actionable data insights to reduce the cost of care and improve quality scores.

Shivampet echoes this perspective, adding, "The evolution of interoperability to deliver better healthcare outcomes for members and lower costs for payers is a very compelling value proposition and why I joined DataLink. We are committed to providing data-driven solutions that answer the needs of our nation's healthcare system and I'm excited to be a part of this journey."
