App Name	Do Radiology
Description	This is a series of radiology apps. The creators of the apps describe them as 'Dynamic, immersive radiology environment'. The topics covered are: • MR imaging in prostate cancer • Neuroradiology imaging in stroke • Fundamentals in thoracic imaging • Thoracic imaging – a primer for physicians • Dynamic approach to abdominal radiology • Imaging of aortic disease • Clinical anatomy • MRI made easy The apps work like interactive books on the mobile device. It is an excellent combination of high-quality texts authored by renowned authors and multimedia and image viewing capabilities. I am really a fan of DoRadiology and am waiting for more to come from BestApps BV.
Format	Runs on Apple iPhone or iPad with iOS7 or higher
Offline Use (Y/N)	Yes
Connectivity+	No
