

Dr. Brian McNeil Joins Urology Care Foundation Board of Directors

The Urology Care Foundation, the world's leading nonprofit urological health foundation and official foundation of the American Urological Association, is pleased to announce Brian McNeil, MD, MBA, FACS, has joined the Foundation Board of Directors. Dr. McNeil brings a wealth of expertise in working with patients from underserved areas across the globe.

Currently associate dean for clinical affairs in the College of Medicine and vice chair of the Department of Urology at SUNY Downstate Health Sciences University, Dr. McNeil also serves as the urology chief of service at the University Hospital of Brooklyn. After graduating from Morehouse College, he earned his medical degree from the University of Pittsburgh School of Medicine and completed his urology residency at Loyola University Medical Center under the mentorship of former AUA President Robert C. Flanigan, MD, FACS. Dr. McNeil then completed a clinical fellowship in urologic-oncology at the Memorial Sloan Kettering Cancer Center following research fellowships at the National Institutes of Health/National Cancer Institute and James Buchanan Brady Urological Institute at Johns Hopkins Hospital.

Dr. McNeil is an AUA Leadership Program graduate and has served as an AUA/Sociedade Brasileira de Urologia Academic Exchange Program Scholar, a member of the AUA Diversity and Inclusion Task Force, a member of the AUA Public Policy Council and a member of the Urology Care Foundation's Prostate Health Committee.

"Dr. McNeil's experience and passion for working with underserved populations make him a wonderful addition to the Foundation's Board of Directors," said Harris M. Nagler, MD, Urology Care Foundation president. "We are confident he will support and guide the Foundation in achieving our global mission of improving urological care by funding research, developing patient education, advancing humanitarian initiatives and pursuing philanthropic support."

Dr. McNeil lives by the philosophy "think globally and act locally." He completed immersions in eastern Europe and India where he explored socioeconomic factors that impact health care while in pursuit of his MBA from New York University's Stern School of Business.
