

EAHM Congress Dublin - Photos are online

Brussels, Belgium: Christian Marolt, Publisher of Hospital, the official voice of the "European Association of Hospital Managers" announced today, that all pictures taken from the Hospital team during the 21st Congress are online with immediate effect. "We are talking about almost 1400 pictures with a total size of nearly 5 GB in size" Marolt continued.

Due to the extremely large size you will only find thumbnails and medium size pictures in the picture database. For any request with respect to large size photos please only send the required numbers to pictures@hospital.be. We are happy to provide you with large images by email (3 - 4 MB each picture) and in due course with an extra download link.

For ordering prints we are still in process to set up an account with the Kodak Gallery to be finished till 23. September. This will enable you to order them directly without any hassle.

For any further question please do not hesitate to contact the Hospital Team.
