• Sharp increase in sales in the first half of 2015: up 43% to €10.2 million

The Company sold 20 EOS® systems during the first half of the year, compared to 15 during the same period last year. With a higher average selling price of €425,000 (compared with €391,000 at June 30, 2014), revenues from sales of equipment totalled €8.5 million, an increase of 45%

Sales of maintenance contracts, which were driven by the increase in the installed base of EOS® systems under contract, increased by 42% to €1.32 million compared with €0.93 million last year.

Sales of consumables and services were €0.38 million in the first half of 2015, up 17%.

Excluding the impact of changes in foreign currency exchange rates, total sales were up 30% in the first half of 2015.

The strong growth in sales was driven by continued momentum in the United States and a strong performance in Europe

Unaudited data

EOS imaging sold 14 EOS® systems in the second quarter of 2015 and generated revenues of €6.88 million, an increase of 39% as compared to the second quarter of 2014.

Marie Meynadier, Chief Executive Officer of EOS imaging, said, "We are very pleased to have achieved a third consecutive quarter of strong results in the U.S., which represents our largest market and growth opportunity. This positive momentum was coupled with excellent sales growth in Europe, enabling us to deliver robust half-year performance despite a temporary slowdown in Asia, which reported a record performance in the first half of 2014. The company is well positioned to drive increased adoption of EOS in the markets where we operate. In addition, we are expanding our strategy to develop new services to further increase the EOS® solution attractiveness."
