

Eric Bohannon Joins Buoy Health Board of Directors

AI-powered health platform [Buoy Health](#) announced the addition of Eric Bohannon, Regional Medicare President at Humana Inc. to its Board of Directors. Over the course of two plus decades with Humana, Bohannon has led overall Medicare operations across numerous states, as well as health information technology development to support the company's national provider value-based care initiatives.

"At Buoy, we're creating an experience for consumers that is *pushing* the boundaries of choice and access in digital health," said Andrew Le, MD, CEO and Cofounder of Buoy. "Eric's background in value-based care and assisting Medicare seniors will be instrumental as we advance our vision of a patient-centric marketplace."

Eric Bohannon commented, "Across my career, the importance of matching patient needs to appropriate care and support has always been a guiding light. Buoy has made strides to get individuals clinically sound information that supports their ability to seek care." Bohannon added, "As a Board member, I look forward to working with Andrew and the larger Buoy team as they create a marketplace where seeking care is personal, simple, and drives towards quality for patients."
