
European Congress of Clinical Microbiology and Infectious Diseases 2015: Antibiotics

The [European Congress of Clinical Microbiology and Infectious Diseases](#), the annual meeting of the [European Society of Clinical Microbiology and Infectious Diseases \(ESCMID\)](#) is the most attended infectious disease conference worldwide. This year, more than 10,000 clinicians and scientists attended the congress to present and share the latest research breakthrough in infectious diseases.

This report, by Professor Matteo Bassetti, Head Infectious Diseases Division, Santa Maria della Misericordia di Udine, Genova, Italy and Paula Hensler, Medical Writer, reviews the sessions that addressed the challenges of the increasing antibiotic resistance, antibiotic stewardship and the responsible use of antibiotics.

The report can be downloaded below.
