

## Female Pelvic Health Expert Renee Caputo, M.D., Joins Central Ohio Urology Group

---

[Central Ohio Urology Group](#) is pleased to announce that [Renee M. Caputo, M.D.](#), has joined its [care team](#). [Dr. Caputo](#) is a gynecologist by training and has been a full-service female pelvic health specialist in the Columbus area for three decades.

With a [clinical network of 15 offices](#) in the region, [Central Ohio Urology Group](#) is one of the nation's leading providers of [comprehensive urological services](#), including [general urology](#), [men's health](#), [women's health](#), [cancer care](#), [advanced cancer treatment](#) and [radiation oncology](#). [Central Ohio Urology Surgery Center](#) is one of the first ambulatory surgery centers in the country to offer [urologic robotic surgery](#).

[Corina Tracy, Chief Executive Officer of U.S. Urology Partners](#), the parent company of [Central Ohio Urology Group](#), stated, "We are honored to welcome such a highly respected physician as [Dr. Renee Caputo](#) to the care team at Central Ohio Urology Group. Dr. Caputo's years of experience and fellowship training in urogynecology and female pelvic medicine further expand our level of care and [innovative treatments for women with pelvic health issues](#). Dr. Caputo will help us deliver our mission of providing an individualized, high-quality and compassionate experience for every person we are honored to serve."

Born and raised in Ohio, [Dr. Caputo](#) has extensive experience in pelvic health and treats female (biologic) patients. She attended a 6-year combined BS/MD program at Kent State University and Northeastern Ohio Universities College of Medicine (now called NEOMED). Dr. Caputo completed her residency in Obstetrics and Gynecology at The University of Pittsburgh/Magee Women's Hospital and then went on to complete a fellowship in Urogynecology and Female Pelvic Medicine at Methodist Hospital of Indiana in Indianapolis.

[Dr. Caputo](#) serves female patients with pelvic health issues, including urinary and fecal incontinence, urinary and defecatory voiding dysfunction, recurrent urinary tract infections (UTIs), pelvic organ prolapse, pelvic floor muscle dysfunction including pain, painful bladder syndrome, vulvar pain and skin disorders, dyspareunia and overactive bladder.

[Dr. Caputo](#) stated, "I am excited to join Central Ohio Urology Group's dedicated, highly skilled [care team](#). The [Central Ohio Urology Group facilities](#) that I will work from will seamlessly support my 30 year old practice and enable me to continue providing the high quality that I strive to achieve."

"Patient care for me is simple: take the time to listen to the patient's concerns and individualize care to address those concerns in the most efficient, least invasive and least costly way possible," said [Dr. Caputo](#). "I believe that every woman with pelvic floor dysfunction is entitled to a comfortable and professional healthcare encounter that will improve her quality of life, educate her and thus empower her to maintain pelvic floor health throughout her lifetime."

"Patients appreciate the time I take with them, the fact that I listen to them and take their concerns seriously, that I involve them in the decision making, that their concerns are addressed in a timely manner and that if I can't address their concern(s) personally, I will find them the person/service that can. More concisely, I believe that patients consider me to be their advocate," added [Dr. Caputo](#).
