
IDoR 2015: Radiology Saves Children's Lives

Sunday 8 November marks the fourth [International Day of Radiology](#) (IDoR) and the 120th anniversary of the 1895 discovery of the X-ray by Wilhelm Röntgen. Sponsored by the [American College of Radiology](#), the [Radiological Society of North America](#) and the [European Society of Radiology](#), numerous activities have been organised to mark the event, with the participation of more than 128 medical societies in 68 countries.

The main focus for IDoR 2015 is the imaging of children and the role that radiological staff play in treating paediatric diseases and injuries.

Call to Action - Count Me In!

1. Download the booklet

Specially published for IDoR 2015 - [The Gentle Way: the Art of Paediatric Imaging](#).

□

2. Spread the word

- Like the [International Day of Radiology Facebook page](#)
- Tweet #IDoR2015 #PedsRad
- Join the [Thunderclap](#)

3. Watch the video

□

Watch the [video by Ray Somcio](#) - "A story of my daughter, my inspiration for becoming a paediatric radiologist", and give it a thumbs-up.
