

Jean-Pascal Piermé is Now Vice-President, Operations at MédecinDirect, Teladoc Health France

Jean-Pascal Piermé is new Vice President Operation at MedecinDirect. He has been the General manager at DocRezo since January 2020 and is engaged in the transformation of medical equipment for telehealth centres.

Pierme has an extensive experience of 30 years in leading organisations and projects for transformation and growth in health. He has an extensive network, and uses best medical practices to attract the best talent, volumes and ultimately, profitability. According to Jean-pascal Pierme, success is based on four skill levers: team management, the habit of working and innovating with regulators and funders, a capacity to create medical and professional teams aligned on a project, and data management.
