Promoting Management and Leadership

Med-e-Tel Call for Abstracts

Med@Tel

Med-e-Tel encourages healthcare providers, medical practitioners, nursing professionals, government officials, researchers, educators, and industry representatives to submit presentation proposals for the Med-e-Tel 2013 conference programme.

The areas covered in the Med-e-Tel 2013 conference programme will include (but are not strictly limited to):

- Bio-informatics and bio-medical technologies
- Cost-benefit studies
- Disease management and patient compliance
- eHealth and telemedicine implementation in low resource settings
- eHealth integration into routine medical practice
- eHealth master plan development for developing countries
- Elderly care, services for the ageing
- eLearning, distance education
- Electronic health records, personal health records
- ePrescription
- Evidence based telemedicine/telehealth
- Facilitating collaboration among existing projects and applications
- Health and wellness promotion
- Legal and ethical aspects
- Market trends
- Medical informatics
- Mobile healthcare
- Opportunities for and barriers to eHealth and telemedicine implementation
- Open source software in healthcare
- Reimbursement issues
- Remote patient monitoring, homecare applications
- Secure data transmission, privacy issues
- Smart homes and independent living
- Standardisation and interoperability
- Strategies for the future
- Telecommunication and wireless technologies for eHealth
- Tele-epidemiology
- Telemedicine applications in cardiology, dermatology, radiology, wound care, and other medical disciplines

- Telemental health
- Telenursing and nursing informatics
- Telepaediatrics
- Telepsychology, telepsychiatry
- Telerehabilitation, cybertherapy
- User needs
- Venture capital and investment opportunities

Submissions on additional topics, relevant to the fields of Telemedicine and eHealth will be considered too. Especially practical experiences, evidence of telemedicine/telehealth outcomes, business cases, as well as position papers, ongoing research, national/international policy guidelines and project results will be of interest to the Med-e-Tel audience.

The deadline for abstract submission is 21 December 2012.
