

Mindray's Covid-19 Webinar - "Chinese Solution, Global Sharing"

At present, the COVID-19 outbreak has become a serious global public health challenge. The number of patients infected 2019-nCov worldwide has reached over 240,000, and most hospitals worldwide are facing great challenges.

Themed "Chinese Solution, Global Sharing", on **March 22nd 20:00-22:10 (UTC+8)** Mindray will invite five top-notch Chinese hospital directors to share with the **global hospital managers and medical staff (free to attend)** how to combat the virus at the forefront of the battlefield, hospital management and operation under the epidemic, and how to save critically ill COVID-19 patients with coordinated efforts in a comprehensive way.

- Dingyu ZHANG, Director of Wuhan Jinyintan Hospital, the first batch of designated hospitals for centralized treatment of patients infected by the 2019-nCoV coronavirus in Wuhan.
- Yongtao LYU, Deputy Director of the Hanyang Guobo Mobile Cabin Hospital of Wuhan.
- Xinmin LIU, Director of Peking University First Hospital, team leader of National Medical Support Team to hubei province.
- Chouwen ZHU, Deputy Director of Zhongshan Hospital affiliated to Fudan University, team leader of Shanghai Medical Support Team to hubei province.
