Promoting Management and Leadership

Navigators Circle 2016, March 7-10

As American healthcare continues to experience enormous change, **Siemens** and **Disney** have joined forces to create a valuable and enriched senior leadership educational experience - one that addresses the need for comprehensive leading-edge strategies for:

- ◆ Generating customer loyalty and excellence
- ◆ Creating and maintaining your organization's culture
- ◆ Enhancing leadership and organizational alignment

The Navigators Circle – a unique, interactive program of exploration and discovery – is designed expressly for healthcare leaders. For three days, you and your colleagues will focus intensely on some of today's most critical challenges, such as building customer loyalty and organizational excellence. The program will include interactive exercises, such as case studies, team projects, presentations by attendees, and hands-on workshops, as well as park visits to personally observe Disney's imaginative and world-renowned solutions to these challenges.

The 2016 Navigators Circle was held in Orlando, Florida, March 7-10.
