Noémie Paillon Joins AstraZeneca as Assistant Project Manager in Oncology & Haematology

Noémie Paillon has assumed the role of Assistant Medical Oncology and Haematology Project Manager at AstraZeneca. With a robust background in immuno-oncology, she brings a wealth of experience and a unique set of skills to her new position.

Noémie characterises herself as a doctor who possesses excellent communication skills, a natural sense of curiosity, a strong sense of motivation, and an ability to learn quickly. Her primary objective is to contribute to the advancement of healthcare, and she is currently seeking a position in medical affairs that will enable her to accomplish this goal. Noémie intends to build solid relationships with healthcare professionals and work collaboratively to enhance the delivery of exceptional patient care.

Noémie has an impressive background as a Pre-clinical Research Project Manager at Institut Curie, where she gained extensive expertise in her field. In particular, she led a research project in the Immunity and Cancer unit (INSERM U932), which focused on the effects of PD-1 on the formation of the immune synapse. Noémie excelled in her multifaceted role, which involved overseeing project management, facilitating collaboration between four teams, supervising students, conducting extensive literature reviews, and advocating for PhDs in the Immunity and Cancer unit. Her wealth of experience and skills make her an asset to any team.
