

Petauri™ Health Adds Nicole Kline and Lauren Gonzalez to Senior Leadership Team

Rapidly growing pharmaceutical services platform enhances corporate center with key strategic talent specializing in legal and human resources matters.

Petauri Health, a purpose-built pharmaceutical services platform announced the addition of two industry professionals who expand its senior leadership team.

Nicole Kline, Petauri's new Vice President, General Counsel, will provide legal and strategic expertise to guide the company's ongoing business and acquisition activity. Nicole got her start in the legal profession in healthcare law and regulatory work, where she quickly developed a passion for the corporate side of the industry. Her practice shifted to a focus on mergers and acquisitions (M&A), working across various healthcare verticals. "Early on, what resonated most deeply for me in M&A was the importance of strategic thinking and business planning, relationship building, and the ability to collaborate with the other stakeholders — which ultimately led to successful outcomes for all involved," offered Kline. "At Petauri, the opportunity to build something from the ground up that supports patient access and improved outcomes, and the ability to stay actively involved in relationships built along the way, is something I know I will be passionate about for the long term."

Lauren Gonzalez, Petauri's new Vice President, Human Resources, leverages more than 15 years of experience in talent recruitment and management to excel in her new role. She started her career at a professional employer organization, supporting thousands of employees who worked for various companies across multiple verticals. Following that, Lauren led human resources and operations as a member of the senior leadership team at SmartLink, a national telecommunications services company. "At Petauri, our objective is to preserve the successful aspects of the companies we acquire, essentially the very reasons we sought partnerships with them in the first place," said Gonzalez. "Putting people first is key to our mission and vision for those companies, and I'm also excited about the positive impact we can make on patients' lives."

"I'm thrilled to welcome these two exceptionally talented professionals to Petauri Health. Lauren and Nicole bring critical skills and experiences and will meaningfully contribute to Petauri on day one," said Dan Renick, Petauri CEO. "Their strategic decision-making abilities will be instrumental in shaping the future of our company and ensuring its continued success and expansion."
