

Rafael Beyar, New Senior Medical Advisor, Intratech Medical

Professor Rafael (Rafi) Beyar has joined Intratech Medical as Senior Medical Advisor. Prof Beyar is an interventional cardiologist, former director of Rambam Health Care Campus, Professor Emeritus of Medicine and Biomedical Engineering at the Technion and former Dean of the Rappaport Faculty of Medicine. He received his MD from Tel Aviv University, DSc in Biomedical Engineering from the Technion, and MPH from the Bloomberg School of Public Health, Johns Hopkins University. His clinical training was at Rambam and Johns Hopkins Cardiology.

Prof Beyar's research focuses on cardiovascular imaging, computer modelling, stents and cardiovascular robotics. As director, he led the construction of the Rambam west campus, including the 2000 bed Fortified Underground Hospital, the Children, Oncology and Cardiology clinical buildings and the health Discovery Tower.
