Reset 2021: Join the Expert Discussion

To round up the first HealthManagement.org – The Journal issue of this year, prominent contributors will join forces at the Reset 2021 DigiConf webinar to discuss a range of issues related to COVID-19 and the future of healthcare. You are invited to join us online on 2 March 2021.

The best thing about 2020 is that it is over. Undoubtedly, it was a seismic shock to most healthcare systems around the world to deal with the fall-out of COVID-19. Inevitably, the way we deliver care has fundamentally changed. During the *Reset 2021 DigiConf* webinar, our panellists will be looking at the challenges and issues facing healthcare providers in Europe and the rest of the world in the aftermath of the pandemic.

It seems there are more questions than answers right now. How do we ensure efficient vaccination programmes globally? Why will 'agility' matter in the (post-) pandemic world? How do we transition from 'sickcare' to 'healthcare' using technology? What role have charity initiatives played in mitigating the COVID-19 crisis? How dynamic is health innovation in Europe really?

After a brief introduction from Mag. Christian Marolt, Executive and Editorial Director at HealthManagement.org, these and many other questions will be discussed by the panel. During the Q&A session, audience members will also have an opportunity to exchange ideas with acknowledged experts from various fields, including:

Prof Davide Caramella, Professor, Diagnostic and Interventional Radiology Department of Diagnostic and Interventional Imaging, University of Pisa (Italy).
