

Schiller India, Neurologica, Team Up for CT

Schiller India, a Swiss joint venture company in the field of medical diagnostics has tied up with NeuroLogica Corporation, U.S. which deals in medical imaging equipment. According to Sudip Bagchi, Associate Vice President, Radiology, "This tie-up with NeuroLogica Corporation will enable us to offer Computed Tomography imaging with greater portability (battery back up) and patient safety. With plug-and-play models like *CereTom®* (8 slice Head CT), *BodyTom™* (32 slice whole body CT) and *inSPiraHD™* SPECT (Molecular Imaging), we can now bring the power of imaging to the patients wherever they may be."

Schiller is committed to providing state of the art medical diagnostic equipment and services, and NeuroLogica Corporation's range of medical imaging equipment increases Schiller's offerings. NeuroLogica Corporation develops, manufactures and markets medical imaging equipment for healthcare facilities and private practices worldwide. These scanners deliver effective, reliable and flexible CT imaging at the ER, OR, NICU or any location a scan is required. The *CereTom®* and the *BodyTom™* are FDA cleared and ETL approved.
