

Swisslog Healthcare Appoints CEO Cory Kwarta to TransLogic Board

The Board of Directors of Swisslog Healthcare on April 1 appointed its CEO, Cory Kwarta, as a member of the Board of Directors. [TRANSLOGIC CORPORATION D/B/A Swisslog Healthcare](#) is a leading supplier in healthcare technology combining pharmacy and transport automation. Additionally, Cory was appointed on April 1 to serve as a member on the Translogic Limited Board of Directors, the legal entity in Canada. In this role, Kwarta will be entrusted with the success and strategic direction of the entire organization.

Cory Kwarta was recently named CEO Swisslog Healthcare TransLogic and previously served as the North American president for Swisslog Healthcare. These progressive actions come on the heels of the organization updating its global management structure within the KUKA Group - a leading global supplier of intelligent automation solutions.

For the past 10 years, Kwarta has served Swisslog Healthcare in various leadership positions. He has a bachelor's degree in systems engineering from the United States Military Academy at West Point and a master's degree in business administration from the University of Denver.
