

UK's Largest Teleradiology Group, MEDICA, Selects TeraRecon

TeraRecon, (www.terarecon.com), a leader in advanced visualization and enterprise medical image viewing solutions, has been selected by MEDICA, the UK's largest teleradiology group, for advanced visualization and reporting. MEDICA provides remote, overnight, urgent, and specialty review and reporting, producing over 1.5 Million reports per year, has a Radiologist resource of over 220 and serves over 100 organisations in the UK.

"TeraRecon was selected because of their impressive clinical functionality, ease of use for our Radiologists and clinical staff, as well as their scalable server-based technology. With TeraRecon, we are able to improve and expand the services we are able to offer our patients in areas such as specialist stroke services, CT Colon, PET CT, Cardiac CT, and Multiparametric Prostate reporting." said MEDICA Medical Director, Dr. Stephen Davies.

Jeff Sorenson, President and CEO of TeraRecon, said "We are excited to partner with MEDICA to help broaden their clinical capabilities and streamline radiology workflow. TeraRecon shares MEDICA's vision to improve patient care by placing a high priority on imaging accessibility and sub-specialty advanced imaging. We look forward to working with MEDICA Group as they continue to expand their range of sub-specialty interpretations and extend the reach of our iNtuition advanced visualization solution via seamless integration with existing PACS systems in use throughout over 100 UK NHS trusts."
