
Vial Introduces New Member, Dr. Jack West of AccessHope to their Oncology CRO Advisory Board

Vial welcomes Dr. Howard Jack West as a new Oncology [CRO](#) Advisory Board member. Dr. West is a thoracic oncology specialist and Associate Clinical Professor in Medical Oncology at City of Hope Cancer Center. He also serves as the Clinical Executive Director at AccessHope, a leading-edge cancer care center offering remote consult services.

Vial is a tech-enabled [CRO](#) providing cutting-edge [clinical trial](#) management services that deliver faster, more superior trials for sponsors. The Vial [Oncology CRO](#) distinguishes itself by leveraging Vial's technology platform that brings together [CTMS](#), [eSource](#), [EDC](#), [eTMF](#), and [ePro](#), in one connected system to streamline processes. These best-in-class CRO services will accelerate the development of new therapies and devices for oncology sponsors.

"Technology has been an underutilized tool in the clinical trials management process for quite some time. It's exciting to see [CROs](#) like Vial utilizing technology that helps streamline processes which ultimately help oncologists discover and provide the best cancer care possible for our patients.", said Dr. West on joining Vial's Scientific Advisory Board.

Dr. West is an internationally known medical oncologist with a clinical focus and a strong background in lab-based research. Dr. West spent over 16 years co-leading thoracic oncology at the Swedish Cancer Institute in Seattle before moving to the City of Hope Cancer Center. He has dedicated his focus to innovative approaches to clinical research, using technology for remote case reviews and telemedicine consultations.

In addition to Vial's Oncology CRO Advisory Board, Dr. West is the Founder & President of Global Resource for Advancing Cancer Education (GRACE), Web Editor for JAMA Oncology, and contributing author and section editor in lung cancer for UpToDate. Dr. West will act as a scientific advisor for Vial's [Oncology CRO](#) alongside members [Dr. Arati Rao](#), [Dr. Guru Sonpavde](#), and [Dr. Antoni Ribas](#) to refine the CRO to support oncology sponsors' and patients' greatest needs.

"We are excited to have someone like Dr. West, who values an innovative approach to clinical research, on our oncology advisor board.", said Wendy Pinson, Vial's Director of Oncology.
