1. What are your key areas of interest and research?

Early in my career, my research activity was focused on abdominal imaging, especially on liver disease. The emphasis has shifted to digital imaging and the development and implementation of IT in diagnostic radiology.

2. What are the major challenges in your field?

How to be more focused and active in the clinical decision making process and at the same time maintain leadership in imaging technology implementation and management.

3. What is your top management tip?

Delegation! It is always worth investing time and resources in helping members of the department to be able to resolve issues as much as possible in their positions.

4. What would you single out as a career highlight?

Being open minded to accept new challenges and positions.

5. If you had not chosen this career path you would have become a...?

Maybe an ophthalmologist! it was a crucial decision a "few years ago!

6. What are your personal interests outside of work?

I love music, cooking, "getting away from it all in nature," and spending time with family.

7. Your favourite quote?

"Try not to become a man of success, but rather try to become a man of value" - Albert Einstein
